### EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Barbara J. Carter on 6/23/06.

The application has been amended as follows:

In claim 1, step (ii), delete the terms "an adhesive, a polymer".

Cancel claims 3, 13-18.

In the specification, number the pages as 1-31; and add Tables 1-3, attached to the drawings, as pages 32-34.

2. The following is an examiner's statement of reasons for allowance: claim 1, 3-5, 7-10, and 12 are allowed over the prior art of record. The prior art of record teaches membranes including a support and a layer of polyurethane, epoxy or silicone layer, membranes including a support and a layer of a membrane composition including a hydrophobic and hydrophilic polymer and particles. The prior art does not disclose a membrane including the three layers of material, e.g. support middle layer of the specified material and top layer with the specified composition as whole.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Additional cited references teach polyurethane and silicone coated membranes, placing the layer in between the hydrophilized hydrophobic polymer and the support is not suggested.
